MEMORIAL HOSPITAL WANTED FOR BULLOCH

FEASIBLE PLAN TO BUILD MONUMENT TO THE MEMORY OF PATRIOTIC SOLDIERS.

Editor Bulloch Times:

In compliance with our conversation a few days ago, I submit the following article:

At this time when the whole nation is rejoicing over the victory of the ideals of humanity over autocracy, it is meet that a suitable memorial be erected to mark one of the greatest epochs in the world's history and to commemorate the deeds of bravery and sacrifice made to bring about such a gloriously won victory.

Monuments of stone or triumphal arches, while expressing a beautiful sentiment, lack that essential of usefulness that characterize the tendencies of American people.

The ideal memorial is one that not only perpetuates such a memory, but also serves a purpose of usefulness and of mercy to humanity.

Such would be a memorial hospital, and no more fitting tribute could be paid to our boys who died their part in the world conflict and to those who made the sacrifice.

Feeling that I express the sentiment of the people of Bulloch county when I say that we should erect such a memorial hospital, I submit the following plan:

With the tentative subscriptions I already have, if every holder of Liberty Bonds in Bulloch county will clip one year's interest coupon and deposit it in one of the banks of Statesboro to the credit of the memorial hospital fund, it will be sufficient to erect and equip a modern ninety-bed hospital in Statesboro at a cost of something like \$40,000.

When the hospital is completed, let it be turned over to the city of Statesboro and Bulloch county to be governed by a board of managers appointed by the grand jury, the ordinary being a member of such board.

"The poor we have with us always," and it is for such a purpose that the board should be thus appointed.

An individual who is sick or incapacitated by affliction and has no funds, is an expense to his family, his landlady and his community. A considerable percentage of such cases can be made useful citizens and can be changed from objects of expense into wage earners.

Such individuals, it is planned, can go to the ordinary, make the necessary statements, and be admitted to the hospital free of charge, and the doctors agree to give such patients free medical and surgical treatment. Or, whatever the individual is able to pay, can be determined by the ordinary and thus can be admitted for treatment, thus doing away with the method of raising money for their hospital expenses by taking up a collection or subscription from the community of such afflicted one.

Will such a hospital be self-sustaining? Experience with the present sanitarium shows that it will.

There will be sufficient pay patients from Bulloch and the surrounding counties to pay the expense, and Bulloch county and the city of Statesboro will have an institution to take care of their charity sick—a duty that we owe them—and a care that the present era of progress and conservation requires that we give them.

Let some of us may have the impression that the plan might not be feasible on account of the fact that we gave to different war fund activities, let me remind you that Bulloch county and Statesboro gave all more than was asked of them for these funds; still, according to our population we gave only about seventy cents per capita.

I do not include Liberty Bonds or War Savings Stamps, since these are classed as investments, and the safest investments on earth.

Figured on a per capita basis, one year's interest on one individual's Liberty Bonds will buy a box of cigars or a pair of silk hose if used individually; yet, when used collectively, would erect an institution that would benefit many, many sick and afflicted for many years to come; an institution in which each of us would have an interest, out of which we would derive the joy and satisfaction in knowing that we had done something for humanity, which after all is the main, true happiness in life.

Along with such an institution would come a recognized nurse.

PEACE TREATY READY ON WILSON'S RETURN

ALL COMMISSIONS REQUIRED TO REPORT THEIR FINDINGS TO SUPREME COUNCIL.

Paris, Feb. 22.—Results of far-reaching character were obtained at the meeting of the Council of the great powers today when resolutions were adopted requiring such a speeding-up of all important branches of the work of the Peace Conference as to permit the formation of a preliminary peace treaty by the time President Wilson returns to the United States.

It will require effort on our part; there will be work for the various benevolent organizations and societies to do; but I believe the plan perfectly feasible, and hope to soon see a definite movement made for the campaign for funds for let us call it, the "Bulloch Memorial Hospital."

Sincerely,

A. J. MOONEY.

FARMERS CALLED TO MEET IN STATESBORO

PLANNED TO CO-OPERATE WITH STATE-WIDE MOVEMENT.

A meeting of the farmers of Bulloch county is called to be held in Statesboro on Monday, March 3rd, at 11 o'clock a. m.

The object of this meeting is to take definite steps toward organizing the county in the interest of higher prices for cotton. We urge every farmer to be present.

The work of this organization is in line with the movement now being perfected in all the other counties of the state under the direction of the state department of agriculture. It is an important work, and the farmers are vitally interested.

I. W. W. PLOT AIMED AT WILSON'S LIFE

DETECTIVES SO ALLEGE, FOLLOWING ANNOUNCEMENT OF ARREST OF MEMBERS.

New York, Feb. 23.—Fourteen members of the Spanish branch of the I. W. W. were arrested by secret service men and members of the police bomb squad in two raids here late today. While they are charged formally with having seditious literature in their possession, government agents claimed to have evidence they were hatching a terrorist plot.

Frank Francisco and Edward J. Dowd, of the secret service, as well as New York detectives who assisted them in the raids, declared they had obtained evidence which would be used in an attempt to prove the prisoners had planned to assassinate President Wilson in Boston tomorrow, but this assertion was discredited by Captain Peter Rubin, of the secret service, who directed the raids.

According to the police the two Philadelphia men who frankly admitted they were anarchists, stopped here on their way to Boston, and intended to go to that city tonight.

The grave nature of the alleged plot and the imminence of the attempt to carry it into execution, it was declared, made it essential the men be imprisoned at once.

After being questioned at police headquarters where their finger prints were taken, the prisoners were locked up without bail pending arraignment before United States commissioner tomorrow.

Meanwhile mechanical experts have been assigned to assemble a complicated machine found dismantled in one of the rooms raided. The secret service agents said they were at a loss to explain its purpose. Translated.

tors were put to work on a mass of papers and pamphlets seized.

One of the houses raided had been under police surveillance for several days as a result of meetings held there, it was said.

Eleven of the prisoners when booked at the police station, gave New York addresses, two said they lived in Philadelphia, and a third said his home was in Elizabeth, N. J. All the men, it was said, are Spanish aliens who have come to the United States during the past three years.

According to the secret service men a youth of 25 years who gave his name as Jose Grau, is the chief organizer of the Spanish I. W. W. here, and is the editor of a radical Spanish newspaper published in New York.

In the I. W. W. organization, it was said, he is known as Arnoldo Sapatena.

BELIEVES AMERICA WILL SUPPORT LEAGUE

MOVEMENT WOULD FAIL IF THE COUNTRY SHOULD FAIL TO GIVE IT BACKING.

Boston, Feb. 24.—President Wilson, returning to American shores today, is confident that congress and the people will approve participation of the United States in a league of free nations.

Failure of America to sanction such a course would, he believes, be a great moral blow to the civilized nations and would tend to encourage a just and lasting peace.

The president's historic journey through foreign lands and his work at the peace table have convinced him the European nations look to the United States as the one great power without selfish interests, participating in the conference.

For the United States to refuse to join in what he and a majority of the nations regard as the fundamental of lasting peace would, he believes, break the heart of the world movement for a new order of things.

Hence, the president returns to the conference with a conviction that the country and congressional members of the vital importance of the league.

As the covenant is not in its final form and is, therefore, not ready for ratification, the president's work is now largely informative.

His big fight, if one proves necessary, will come after the Paris conference finally approves a league plan and the peace treaty is completed.

In or if, Mr. Wilson pointed out that unless the legislature enacts this good roads legislation, the entire highway program will be set back at least another year, and that Georgia consequently will risk the loss of millions which under the terms of the Federal Road Act will revert to those states which have gone ahead with progressive programs of actual highway construction.

The statement follows:

"Section 3 of the Federal Road Act of 1916 provided that certain monies that have been appropriated to states, counties or other sub-divisions and remaining 'unexpended' after a period of three years from the time said monies are appropriated, shall be reappropriated to other states under the same terms and on the same basis as the original appropriation."

"Under Section 3, Regulation 2 of the Rules and Regulations of the Secretary of Agriculture, we find this provision: 'Any amounts appropriated to the states as herein provided, remaining unexpended for a period of three years after such appropriation may be reappropriated by the Secretary to the several states in the manner provided for original appropriation.'"

"It is reasonable to construe the above section of the act and the ruling of the Secretary of Agriculture to mean literally that any funds appropriated for projects that might have been approved at Washington and which were not actually accomplished—the money still remaining 'unexpended'—the Secretary can reappropriate such funds to other projects in other states as the ruling provides."

"With the money that will be due on July 1, 1919, Georgia will have to its credit more than \$4,700,000 of Federal aid money. In 1920 there will be an additional sum available of \$2,665,000. If we do not spend this year the money that is credited to us at this time, can we spend enough in 1920 to absorb this 1919 fund? The point I wish to emphasize is that we are now three years behind and the Federal funds are increasing in volume each year. In 1920 we would be four years behind."

"If Georgia is losing time and likely to lose the Federal funds indicated above, how can this money be saved to the state? By an immediate special session of the General Assembly called for the definite purpose of considering and enacting highway measures, the most important of which are: first: Reorganization of the State Highway Department and authorizing it to lay out and designate a system of state highways that will connect every county seat in Georgia; second, amend the motor vehicle law by raising the automobile license fee and turn the same over to the State Highway Department to be used in aiding counties to meet the Federal Aid apportionment, dollar for dollar. These two measures will help us to begin permanent road building this year."

"The state fees for 1919 will be more than \$400,000 under the present law, and in 1920 at an average license of \$20 per car, the Highway Department should have about \$2,250,000 available with which to aid counties in obtaining Federal funds."

"The constitutional amendments and other legislation may be submitted by the special legislative committee appointed by Governor Dorney and should also be passed at the special session."

BENEFITS TO BE DERIVED FROM FEDERAL LAND BANKS
To the Farmers of Bulloch County: Feeling as I do an interest in the farmer, I want to request Bulloch county farmers to investigate the Federal Land Bank's plan of making loans to farmers. With the assistance of our friend, Mr. Geo. L. Williams, we organized the Metter National Farm Loan Association under the Federal Land Bank act, and farmers of Bulloch county have for some time been getting money from the Metter National Farm Loan Association at 5 1/2% interest for as long a term as 35 years when desired, with the privilege of paying all or part of the loan after the fifth year, stopping all interest. Loans obtained in this way, the farmer pays no commission, more than the actual expense required in handling the transaction, and there is no bonus to pay if payment is made before maturity. Our association recently negotiated a loan of \$5,000 for a charge of less than \$10 to the borrower. The payment on this loan is \$422.50 annually—that pays all interest and principal. You can figure for yourself and see that this

to go to a lawyer and pay him another commission to let you sign a note for another term.
It is an easy matter to organize an association by getting ten or more farmers together and applying for \$20,000 or more loans, the borrower to take 5% of his loan in stock which he can use to pay off his loan, provided there has been no loss in his association, but in no event can the stockholder lose more than 10% of his loan, and if he does, he just as well give it to the farmer as the lawyer. However, out of over one hundred and forty million dollars so far loaned to farmers under this system, no loss has occurred, and with a local board of directors with good judgment there should be no loss.

I urge that you get together and organize an association for Bulloch county, but in the meantime should there be any number of farmers from Bulloch who desire to borrow money as above outlined, I think we can arrange to handle the business through the Metter National Farm Loan Association until there can be one organized in Bulloch.

I am giving this information because I have been asked by a number of my friends as to the working plans of such loan company, and I am frank to say there is no argument to be made against it. The government has simply made it possible for the farmer to obtain money direct from the Federal Land Bank at 5 1/2% interest, and the man that pays a commission to borrow money is just cutting his own throat. If there is any doubt about loans being negotiated with unusual promptness, one will only have to look on the Candler county records at the clerk's office and see where Candler county citizens are getting money and paying up their old loans and borrowing for other improvements. If any of my friends or any one desires further information, if they will write the Federal Land Bank, Columbia, S. C., they will get it. Respectfully,
M. S. DEKLE.

Gadsden Woman Chosen To Name "Victory Vessel"

Mrs. Alexander Greet, of Gadsden, Ala., will be sponsor at the launching of one of the vessels of America's new merchant marine. Gadsden was one of ten cities in the Sixth Federal Reserve District which won the honor of selecting the name for a ship by its large over-subscription to the Fourth Liberty Loan. Mrs. Greet was chosen by the committee in appreciation of her work in Liberty Loan campaigns. She has been active in all war work and has four sons in the army. Gadsden expects to live up to its record in the Victory Loan.

Bonds For Reconstruction.
Four Liberty Loans have been floated by the government to provide weapons of destruction. The Victory has been won; the country is turning from war to peace. Now the nation is called upon to subscribe once more; to buy Victory Bonds to settle the war debts and provide the means of carrying through the work of reconstruction. Peace must be financed as well as war.

What if You Can't Get a New Car in 1919?
817,000 cars were "scrapped" in 1917

"Mother, the old car certainly deserves the best we can do for it!"

"Surely our old friend Car ought to have a new Eveready battery to carry it through the long year ahead. It will be little enough for all he has done for us."

"We can't any of us afford to gamble on whether the car will stand up to the work in 1919, and its got to. So I move, Mother, that we get an Eveready right now—it's guaranteed for a year and a half—and I'll bet the whole family will second the motion. The Eveready Service Station has just the size we need for the car, and they're mighty decent people at testing the battery and keeping it up to the mark. WOODMEN OF WORLD HAVE GROWING LODGE

The Woodmen of the World Lodge of Statesboro, No. 158, is one of the fastest growing lodges in Statesboro or Bulloch county, as will be shown by the following: In August, 1918, the local lodge had a membership of about 12; now it has more than 100 members in good standing.

The Woodmen's Lodge, as most every one knows, is a fraternal insurance order, insuring the lives of members at a very low rate compared to "old line" companies. Its social features are as good as the best, the introduction of its candidates being instructive and interesting.

This organization has only been in order about 20 years, and has now a combined membership that equals or exceeds any other fraternal insurance order, and a reserve of more than \$47,000,000.

In addition to the full amount of insurance the company pays, it places a monument at the head of every deceased member's grave. The Woodman's Lodge proposes and will place a monument at the grave of every soldier who died on the battlefields of France or any other foreign soil. The burial ceremony is in keeping with the fraternal respect such orders display for their deceased membership.

Rev. S. A. McDaniel is consul commander of the local lodge which meets every second and fourth Tuesday evening, in the First National Bank building. All sovereigns are welcome.

All Smoking Tobaccos are Flavored

"Your Nose Knows"

The Encyclopedia Britannica says about the manufacture of smoking tobacco, "... on the Continent and in America certain 'sauces' are employed ... the use of the 'sauces' is to improve the flavor and burning qualities of the leaves."

Your smoke-enjoyment depends as much upon the Quality and kind of flavoring used as upon the Quality and aging of the tobacco.

Tuxedo tobacco is the purest, most wholesome and delicious of all flavorings—chocolate! That flavoring, added to the finest of carefully aged and blended burley tobacco, produces Tuxedo—the perfect tobacco—

MRS. MARY ARMOR TALKS TO LARGE CROWD

Tells Statesboro People That World-Wide Prohibition is Coming.

Mrs. Mary Harris Armor, one of the best known temperance workers of the nation, and the foremost in the state, spoke at the Methodist church last Sunday night to a congregation which taxed the capacity of the building. For more than an hour and a half she recited facts to demonstrate the evil of intemperance, which, she declared, was unanswerable. She declared that science has demonstrated that a larger number of deaths occur among the sick in hospitals where liquor is used as a stimulant than in those where liquor is not used. She brought statistics to show that, even in the treatment of flu, which some hold can be best done with whiskey, a greater per centage of deaths occur in those cities where whiskey is permitted to be used than in those where it is prohibited.

Mrs. Armor declared that world-wide prohibition is not only a probability but a certainty.

CONLEY SENTENCED TO SERVE 20 YEARS

STAR WITNESS AGAINST FRANK CONVICTED ON BURGLARY CHARGE IN ATLANTA.

Atlanta, Feb. 24.—Jim Conley, the state's star witness, and whom many people believe to be actual principal in the Mary Phagan murder case, for which Leo M. Frank was lynched in Cobb county, after being forcibly taken from the state farm, saw the close of doom over liberty for the balance of his life today. The negro was convicted of burglary and sentenced by Judge John D. Humphries to twenty years in the penitentiary. At his age Conley's normal expectancy will have expired within that time, and the surroundings of the conviction are such that there are few men who could be elected governor who would be willing to use clemency in his behalf.

The jury before whom Conley was tried today returned a verdict in five minutes.

The immediate cause on which Conley was convicted was the burglarizing of the soft drink establishment of Arthur Conn, on West Fair street, when Conn, who was lying in wait because of numerous burglaries in that section, looted a volley from a Winchester rifle and winged Conley, preventing his escape.

Policemen Wood and Gresham testified that thirty-one burglaries had occurred in the West Fair street section, one almost nightly, immediately before Conley's arrest and none have occurred since. In addition, burglar tools found on Conley were used in evidence.

STRANGE PROPOSES RADICAL CHANGES

WOULD INCREASE RATES FOR AUTOMOBILE TAGS BASED ON THE HORSE POWER.

Atlanta, March 2.—Secretary of State Henry B. Strange, in his annual report, which will be submitted to Governor Dorsey in a few days, makes certain recommendations and suggestions respecting the future operation of the motor vehicle law, which differ materially from the provisions carried in pending legislation under elaborate discussion and some pressure during the week.

In his report Judge Strange says: "I would suggest that the fees for registration of motor vehicles be increased to five, eight and ten dollars per car, according to the horse power, and the fees arising therefrom be used exclusively for good road purposes. I find from conversation with motor vehicle owners that they are willing to pay a reasonable fee for registration, provided such fee is used to build and maintain good roads."

The funds arising from the sale of automobile tags was not, as is shown from Judge Strange's report, as large as has been calculated by many of the good roads advocates, who are basing calculations largely on this fund. On this the report says:

"The department issued approximately 100,000 automobile tags during the year 1918 and from this source \$331,816 was received. Of this amount \$6,463.24 was paid for postage for mailing out the automobile number plates; blank forms and general correspondence; \$21,461.03 for automobile seals, tags and badges; \$6,018.43 for motor vehicle inspection and clerical expenses; \$805.87 being turned over to the state treasurer."

Some days ago it was stated in this correspondence that Secretary Strange would recommend the creation of a separate department for administering the motor vehicle law. On that the report says:

"After careful consideration I desire to recommend that the registration of motor vehicles be made a separate and distinct department from that of Secretary of State, or any other department now existing. I make this suggestion from the fact that the business of registering motor vehicles in this state has become of such volume that it is my opinion that the creation of a new department known as the motor vehicle department, would be justifiable."

Other recommendations made by Judge Strange in his report are as follows:

"I desire to suggest that in my opinion, the automobile law should be amended in the following respects: "First. The law should be so changed that the half-price for license shall only apply to cars purchased after August 1st, so that all owners of cars up to that time shall pay the same price for license."

"Second. The law should be amended so that dealers be permitted to move cars in transit in driveway from factory, to use one number on the front car and one on the rear car."

"Third. That purchasers of cars be given at least five days from date of purchase in which to apply for a number, the seller giving to the purchaser a certificate as to date purchased."

"Fourth. The law should be so amended as to make it the duty of judges of superior courts to charge the grand juries relative to the criminal law relating to the enforcement of the motor vehicle law, and also make it the duty of prosecuting attorneys, both in city and superior courts to see the law enforced."

"Fifth. The law should be so amended as to permit a party who has lost his number, when he files an application for duplicate to operate his car for a period of thirty days as it usually takes from twenty to thirty days to secure a duplicate from the factory."

"Sixth. The law should require any person who may find a lost number to report this fact, together with the number, to the secretary of state. This would almost prevent the necessity for securing duplicates, as the number could be returned to the owner."

"Seventh. In my opinion, each

MILITARY TERMS STATED BY FOCH

PROVISION IS MADE FOR THE DISARMAMENT OF GERMANY DOWN TO TWENTY DIVISIONS.

Paris, March 1.—Marshal Foch presented today to the council of the great powers the military terms to be considered Monday with the naval terms already submitted to the council.

The military terms provide for the disarmament of Germany down to twenty divisions of ten thousand men each, including fifteen divisions of infantry and five of cavalry. Severe restrictions are placed on the manufacture of all classes of war materials and the military and commercial use of the airplane is limited to the minimum.

Beyond Marshal Foch's presentation of the terms today, they were not discussed.

The naval terms now before the council provide not only for the complete suppression of Germany's submarine equipment, but also for the termination of all submarine warfare by all nations throughout the world, thus ending the use of the submarine in naval warfare.

The provision for dismantling the fortification of Heligoland and the Kiel Canal has been made the subject of reservation by Admiral Hanson, representing the United States, whereby this shall not be a precedent applicable to American canal and harbor defenses, such as Hell Gate, Cape Cod Canal and others.

The provision for the destruction of the larger German warships is approved in the report by the British and American naval authorities, but the French will make reservations against the destruction of these ships.

The Supreme Council is expected to close on this and other naval and military subjects Monday.

IF NOT TAG ON CAR

THE LAW IS VIOLATED

SHERIFF HAS NO AUTHORITY TO LET ANYBODY OFF UNTIL FIFTEENTH OF THE MONTH.

Atlanta, March 3.—The announcement made in print by Sheriff Tom Plunkett of Richmond county that he has extended the time for obtaining automobile numbers to March 15th, today brought the statement from Secretary of State Henry B. Strange that Mr. Plunkett has acted without legal authority. The publication, says Judge Strange, has given the impression in surrounding counties that the state office has extended the time.

"That," says the judge, "is an impossibility. I have no authority to change an act of the legislature, nor has any sheriff in the state that authority. Anybody in Georgia operating an automobile on the public highways or streets without a 1919 tag on it is now guilty of a misdemeanor, and subject to prosecution. The legislature made that provision effective March 1st of each year and none of us have the power or authority to change the law."

All applications for numbers which came in within the time limit, that is by last Friday night, have been filled by Judge Strange's office, but there has been an accumulation of a couple of days mail outside of the time.

CONFERENCE ADOPTS BILL TO GUARANTEE WHEAT PRICE

Washington, D. C., March 3.—The administration wheat guaranty bill was completed tonight with adoption of the conference report by the House and is now ready for President Wilson's signature.

The measure appropriates \$1,000,000,000 as a revolving fund for the purchase of wheat and authorizes the President to create an agency or agencies for purchase of the 1919 crop of wheat at the guaranteed price of \$2.25 a bushel and repose in the agency or agencies the authority to control all commerce in wheat and wheat products.

An amendment offered by senators from the cotton states reducing the number of grades of cotton deliverable on future contracts from twenty to ten, was retained in the bill.

HERR HOHENZOLLERN ASKS FOR MONEY

FORMER GERMAN EMPEROR HAS BEEN FORCED TO LIVE ON BOUNTY OF HIS HOST.

Weimer, Mar. 3.—The former German emperor, it is learned from competent sources, recently appealed to the German revolutionary government for money. It was said in his behalf it was impossible for him to continue living upon the bounty and good will of the Dutch nobleman in whose castle he now resides.

Herr Hohenzollern, it is said, declared he already had been forced to borrow 40,000 guilders from his host and could not continue as a debtor. He asked he be allowed at least a portion of his private fortune.

The government after considering the matter, agreed to his request and instituted a detailed investigation to determine what portion of the former emperor's supposed fortune really was his and what portion belonged to the government. Investigation showed the former emperor had been able to 75,000,000 marks of his own, but the government decided to allow him only 600,000 marks to meet present indebtedness and future expenses.

The correspondent's informant, in calling attention to this development, declared it put an end to rumors that the former emperor had been able to take large sums of money with him when he fled into Holland.

HARDISTY APPOINTED STATESBORO POSTMASTER

APPOINTMENT FAILED OF CONFIRMATION IN SENATE ALONG WITH MANY OTHERS.

The announcement that Freeman Hardisty has been appointed postmaster for Statesboro comes with interest after a long season of suspense, and yet the uncertainty as to the outcome is acute. This uncertainty is understood to arise from the fact that the appointment along with many other presidential appointments, failed of confirmation by the United States Senate on the last day because of the republican filibuster which ushered out the session of Congress. It is published in the newspapers, however, that the President will make recess appointments of those which went by default. Whether Hardisty's will be among the number remains to be seen.

Mr. Hardisty has been connected with the U. S. Engineering department for several months, and is now at Parker, Arizona. A telegram of congratulation from friends here last Friday carried to him the first information he had of the appointment.

The examination for the position occurred on the 9th of January of last year. Fourteen stood in the examination. Mr. Hardisty, H. D. Anderson and R. D. Mallard, in the order named, were the three highest. Because of the delay in making the appointment, it had come to be thought that no one would be appointed.

Mr. Hardisty was assistant postmaster for many years.

PLANTED HIS LIQUOR, GOT QUICK CROP

SHERIFF AND DEPUTY UNCOVER KEG PLANTED IN EARTH NEAR CITY LIMITS.

It is currently reported that the liquor business is about the most profitable know in modern times. Certain it is that a keg planted in the earth near the city limits last Friday morning netted two hundred dollars and was recovered before the sun went down on the next day.

Just what variety the stuff is, is yet uncertain. One report was that it had been brewed in the mountains of North Georgia, and another was that it was ordinary moonshine brewed in the county. The law against distilling without license is so strict that the sheriff and his deputy have not given out any information, and a number of applicants for permission to test it have thus far been denied.

The facts seem to be that Mr. B. D. Loooper, who lives in West Statesboro, drove up to the gate of one of the suburban neighbors at an early Friday morning and asked permission to leave a keg in his barn. The neighbor

had heard of Mrs. A. Armour's statements about the deadline of liquor, and he commanded Loooper to loop-the-loop with his keg. Loooper was determined not to come through town and have a motley crowd following in his wake at the break of day, attracted by the strong odor of rum, so he proceeded to dig a hole in the bushes near the road and bury the keg in solemn form. A spring of evergreen was placed by the spot.

Somehow Sheriff DeLoach and Deputy Mitchell got wind of what had happened and went out to investigate. The result was, they soon found the spot where the keg was snugly reposing, disinterred it and had it on the way to town. Meantime Chief of Police Everett had been taken into the plan and had Loooper in custody. The three officers and Loooper came into town about dusk Friday evening. Said Loooper, "I am looking upon this as a very morning Loooper entered a plea of guilty in Judge Proctor's court and paid a fine of \$200 and costs.

The keg is said to contain about twelve gallons, which, at current prices (\$12 per quart) is estimated to be worth on the local market \$376.

APPEAL TO FARMERS AND BUSINESS MEN

MEETING CALLED TO ORGANIZE BRANCH OF STATE CHAMBER OF COMMERCE.

We are facing a reconstruction period in Bulloch county and the state of Georgia today, and Bulloch as a county and Georgia as a state should get up and begin doing or we will be left in the lurch.

We need permanent highways, a real marketing bureau, better schools, churches and homes; a rural awakening. How to get more results from farming by paying attention to when and how to market farm products. Mr. Farmer, don't stand in your own light, but let us organize in co-operation with the business interests of your county and state.

Mr. L. R. Tillman, southern organizer for the Georgia State Chamber of Commerce, will address you on Saturday, March 8, at 2 o'clock at the court house in Statesboro. Make this a fully representative meeting from all parts of the county. Let nothing interfere with your being present. It means future prosperity to your county and to you. It is a movement led by the governors of the Southern states, together with leaders of farmers unions and agricultural commissioners. In union of our interests there is strength. Divided we fall.

Let every man lay aside his personal matters and be at this very important meeting for Bulloch county and Georgia.

L. R. TILLMAN.

TWO HARD HIT FOR MAKING MOONSHINE

JUDGE PROCTOR PLACES FINES WHICH, WITH COSTS ADDED, TOTAL \$702.25.

Harley McKee and Colonel Parrish, colored citizens living in the vicinity of Portals, were taught a lesson on the evils of moonshining when they entered pleas of guilty in Judge Proctor's court yesterday afternoon to the charge of operating illicit stills. The lesson was impressed upon McKee by a fine of \$400 and costs, and Parrish paid \$250 and costs for his. The two fines and costs amounted to \$702.25. The arrests were made by Deputy Ray Riggs.

Both negroes are well to do and are prominent in their community.

ALTON DELOACH.

Alton DeLoach, aged 17 years, son of the late J. Milton DeLoach, died Saturday morning in Savannah after an illness of only a few hours. Interment was at Lower Black Creek church Sunday afternoon, following services at Brooklet Primitive Baptist church.

CAPT. PARKER FARING WELL.

A handsome photograph of Capt. H. C. Parker just received by the editor, shows him to be in robust health, and apparently happy. The query underneath, "Do you recognize this handsome brute?" calls for the answer that we hardly do.

Capt. Parker is now stationed in the Duchy of Luxembourg, and is still attached to the Fifth Ammunition Train.
